Synopsis book

Glenn Beck author of thirteen #1 New York Times bestsellers issues a startling challenge to people on both sides of the aisle to give up our addiction to outrage. America is addicted to outrage, we are at the height of a twenty-year binge, and we need an intervention. In *Addicted to Outrage*, New York Times bestselling author Glenn Beck addresses how America has become more and more divided both politically and socially. Americans are now less accepting, less forgiving, and have lost faith in many of the country's signature ideals, he says. We are quick to point a judgmental finger at the opposing party, are unwilling to doubt their own ideologies, and refuse to have any self-awareness whatsoever. Beck states that our current downward spiral will ultimately lead to the destruction of everything America has fought so hard to preserve. This is not simply a Republican problem. This is not simply a Democratic problem. This is everyone's burden, and we need to think like recovering addicts
