Synopsis book

Journey a hundred million years back in time, and see 8 amazing dinosaurs in motion. A New York Times bestseller! Using unique Photicular technology that's like a 3-D movie on the page, DINOSAUR brings these legendary, long-extinct creatures to life. Each image delivers a rich, immersive visual experience and the result is breathtaking. There's a herd of giant sauroposeidons, with their impossibly long necks, lumbering across the sun-drenched plains, a threatened velociraptor waving its wildly feathered arms, and more. Flipping through these pages is transports readers to Earth's distant past. With informative text by science writer Kathy Wollard, it's like a natural history museum but better experience it for yourself!
