## **Synopsis book**

The seventh novel in James S. A. Corey's New York Times bestselling Expanse series--now a major television series.

An old enemy returns. In the thousand-sun network of humanity's expansion, new colony worlds are struggling to find their way. Every new planet lives on a knife edge between collapse and wonder, and the crew of the aging gunship Rocinante have their hands more than full keeping the fragile peace. In the vast space between Earth and Jupiter, the inner planets and belt have formed a tentative and uncertain alliance still haunted by a history of wars and prejudices. On the lost colony world of Laconia, a hidden enemy has a new vision for all of humanity and the power to enforce it. New technologies clash with old as the history of human conflict returns to its ancient patterns of war and subjugation. But human nature is not the only enemy, and the forces being unleashed have their own price. A price that will change the shape of humanity -- and of the Rocinante --

The background of the book cover is a dynamic, painterly illustration of a futuristic cityscape. The architecture is a mix of organic, tentacle-like structures and rigid, metallic frameworks. The color palette is dominated by warm, fiery tones of orange, red, and yellow, suggesting a scene of intense action or conflict. In the upper right, a small, sleek spacecraft is visible against the dark, smoky sky. The overall composition is dense and layered, with a sense of depth and movement.
