## **Book details**

Author : Maryanne Wolf Pages : 260 pages Publisher :  
Harper Language : ISBN-10 : 0062388789 ISBN-13 :  
9780062388780

## **Synopsis book**

The author of the acclaimed *Proust and the Squid* follows up with a lively, ambitious, and deeply informative book that considers the future of the reading brain and our capacity for critical thinking, empathy, and reflection as we become increasingly dependent on digital technologies. A decade ago, Maryanne Wolf's *Proust and the Squid* revealed what we know about how the brain learns to read and how reading changes the way we think and feel. Since then, the ways we process written language have changed dramatically with many concerned about both their own changes and that of children. New research on the reading brain chronicles these changes in the brains of children and adults as they learn to read while immersed in a digitally dominated medium. Drawing deeply on this research, this book comprises a series of letters Wolf writes to usher beloved readers to describe her concerns and her hopes about what is happening to the reading brain as it unavoidably changes to adapt to digital
