## **Synopsis book**

A searching, timely account of the condition of contemporary Europe, told through the landscapes of its cities. Over the past twenty years European cities have become the envy of the world: a Kraftwerk Utopia of historic centres, supermodernist concert halls, imaginative public spaces and futuristic egalitarian housing estates which, interconnected by high-speed trains traversing open borders, have a combination of order and pleasure which is exceptionally unusual elsewhere. In *Trans-Europe Express*, Owen Hatherley sets out to explore the European city across the entire continent, to see what exactly makes it so different to the Anglo-Saxon norm - the unplanned, car-centred, developer-oriented spaces common to the US, Ireland, UK and Australia. Attempting to define the European city, Hatherley finds a continent divided both within the EU and outside it.
